ROAD BOOK

30 SEPTEMBER - 01 OCTOBER 2022

Detailed Information and Race Facilities

The SPARTATHLON route is carried out from check point to check point, the altitude difference from the sea level reaches up to 1.200 meters and the Athletes run on an asphalt road, a dirt road and mountain trails.

The check points have a distance of 3.500 meters, on average from each other and are fully equipped with provisions, water and other drinks as well as the Athlete's personal belongings.

The race is conducted under police and medical supervision with doctors, physiotherapists and ambulances available throughout the 36-hour race.

It should be noted that each check point (C/P) has its own time restrictions and athletes must arrive before the official closing time otherwise they will be excluded from the race.

In order for the athlete's to effectively plan their course they should read carefully the information that follows.
